Washington Advices.

Washington, 12.—In reference to Cobb's railroad land grant forfeiting bill, it is not thought probable by members of the judiciary committee that any ac-tion can be reached on the matter the present session of Congress, inasmuch as it will require a two-thirds vote to pass the bill it reported upon favorably by the committee, and members say it wil be almost impossible to secure such a ma-jority in the House.

There is considerable gossip in political

circles about the apparent determinat on of Senator Mitchell to antagonize the Cameron interest in Pennsylvania. It is said Mitchell has pursued a con-ciliatory policy since he has been in the Senste, hoping to avoid any open rup-ture in party affairs in his state, but has decided that the more he concedes the more is required of him, and will

fight hereafter.

Governor Crittenden, of Missouri, appeared on the floor of the House of Representatives, and was given quite an ovation, especially by democratic members.

The Anti-Chinese Question.

New York, 12 .- The Graphic's Washington correspondent says: California statesmen have decided to take a rational view of the Chinese matter, and are go-ing right to work to have another bill passed. Miller and Page have been in consultation with the President several times within the week, and the result is this office. they are confident they can frame a bill ap5 which will meet the President's approval and still be perfectly satisfactory and ef-fective. The programme is to have it brought up first in 'be. House committee on education and labor, and they rope to be able to agre-upon a new bill to-day. Then Page will try next Monday to secure its passage under a suspension of the rules, when Miller will at once call it up in the Senate Miller is confident thate and if the House will suspend the rules and pass it to thinks be will have it once more before the Pres dent becare the close of next week.
